

# 4.) Installing Portainer

- connect via ssh to your pi

- type in:

```
sudo docker pull portainer/portainer-ce
```

- type in:

```
sudo docker run --restart always -d -p 9000:9000 -v /var/run/docker.sock:/var/run/docker.sock -v  
/media/dockerdata/portainer:/data portainer/portainer-ce
```

- now we are able to connect to Portainer via WebBrowser from our other computer by typing in  
<http://ip-adress-of-your-pi:9000>
